

February 25, 2009

To Whom It May Concern:

In 2008, Property Company of America/PCA Jenks Riverview, LLC contracted with Carl White Construction, Inc. to construct a 20,000 square foot retail project in Jenks, OK.

Carl completed the construction of Riverview just last month and our new tenants are now opening their stores and businesses. Carl's professionalism, experience and expertise were invaluable to us throughout the course of the project. Construction was completed within our scheduled time frame and within our budget projections as well.

Carl gives as much attention to the endless but necessary construction and legal documents required as he does to the actual construction. Throughout the project, Carl always had all the required documentation for all phases of the project and we never experienced delays due to lost or incomplete paper work.

Carl brings both diligence and integrity to his work and it is our pleasure to recommend his services. We are looking forward to working with Carl White Construction, Inc. again on our future commercial construction projects.

Sincerely,

Property Company of America

Grant Hinch
