

FIRST BAPTIST JENKS

June 23, 2011

To Whom It May Concern:

First Baptist has had the privilege of working with Carl White of White Construction Company in building our new 80,000 square foot ministry center in the heart of Jenks. We hired Carl to be our construction manager and we expect to maintain a strong relationship with him in coming years, and anticipate working with him on additional construction programs. As a construction manager he has been responsive to the needs and desires of our church family, enabling us to build a first class building while maintaining financial responsibility by managing construction costs effectively.

As a church, one of our primary concerns is that of financial stewardship. Carl worked through a design/build program, thereby enabling us to manage our funds better.

Carl has shown himself to be responsive to the needs of our church and exhibited the utmost respect for our staff during the entire construction process, and responded positively to work through any problems and concerns in a timely fashion.

His skills as construction manager for First Baptist Jenks were exceptional. We are very pleased to recommend Carl White and his construction company to any organization that desires to build a top-quality building and manage construction costs effectively.

Personally, I look forward to working with Carl again in the future.

Sincerely,

Rick L. Frie
Senior Pastor
First Baptist Jenks
